A1

Remarks

The present application is a divisional of parent application 09/634,406, filed August 9, 2000 (which has been allowed and the Issue Fee paid), which application is a divisional of 08/797,803, filed February 7, 1997, now U.S. Patent 6,126,919 (copy enclosed with IDS).

A restriction requirement (a copy of which is enclosed) was entered in the grandparent application 08/797,803, and the present application is directed to claims 42-87, which is a subset of the group I claims (42-87) drawn to particular sustained release formulations.

It should be noted that claims 1-41, purportedly also in restriction group 1, are already the subject of allowed parent application 09/634,406. However, those claims are not limited to sustained release formulations and it is therefore submitted should not be in the same group as the present claims.

It is submitted that the application is in condition for allowance and favorable action is therefore requested.

Respectfully submitted,
